

WAR OF LABOR MAY SUCCEED WAR OF BLOOD ALL THROUGH EUROPE

(By Associated Press.)

ziale Praxis, the strengthening of the class leagues, position of employers, individually

"As a rule," Professor Francke improved and strengthened their positions, and have increased in concentration. There are now fewer independent groups of industrials. Unity its battle will lead,"

BERLIN, Apr. 4.—One of the most and there can be no longer and doubt price a ton of 60 per cent ore is worth inevitable industrial consequences of that German industrials after the war the war will be, in the opinion of will go hand in hand with the agricul-Professor Francke, editor of the So tural alliances and with the middle

course of the war, the professor says, ing through the press that their prin the power of the employers has al ciples remain unchanged, and assume ready enormously increased, and al with absolute conviction that they are though their numbers have been di the masters of the situation. They minished, their strength does not rest insist that Social Democracy shall so much on their numbers of men, as learn a lesson from the war, and rethe number of their establishments. Write the principles which have hither to guided it. But they, themselves continues, "these establishments bave decline to re-write anything and

IMMENSE DEPOSIT OF IRON ON MINNESOTA

WILL PROBABLY BE SHIPPED IF FAVORABLE RETURNS FROM RECENT SAMPLES ARE RECEIVED

Walter Taubert, leasing on the Min nesota-Nevada is negotiating with the Western Ore Purchasing company for the hauling of an immense deposit of 3 per cent copper ore carrying 40 to 50 per cent iron, says the Yerington Times. This property has been mining high grade copper and has a number of carliods ready to ship. Should they find it profitable to handle this low grade ore, and there is a fair chance, this high percentage of iron which the ore carries will make it so, this mine has a chance of becoming one of the big producers of this country. Jesse Peter, the mining engineer who examined this property, reported this ore as a high grade iron ore suitable for making foundry iron and steel. It was his contention that the property could be mined by the cheapest methods as it was within reasonable distance from the railroad and the climatic conditions were favorable for continuous work. This property is one of the largest deposits of iron ore in the west

therefore, when peace comes, there will be peace and relief from years of bloodshed, but the war of labor will succeed it, and no one knows whither

GOOD SHOWING ON THE SIEBERT GOLD PROPERTY

At the Siebert property, 25 miles east of Mina, they are working a force of 25 men, according to the Falion Standard. This property is scarcely one year old and they have at least \$50,000 worth of ore blocked out and broken. It is a splendid free mill-

U.S.Gov.expertsreport that oils correctly refined from asphalt-base crude "distill without decomposition" (do not break up and lose their lubricating value under cylinder heat) and "are much better adapted to motor cylinders, as far as their carbonforming proclivities are concerned, than are paraffine-base Pennsylvania oils.

Motorists who use Zerolene, an oil scientifically refined from asphaltbase crude, back up the experts with reports such as these: "Covered over 16,000 miles without adjusting valves or cleaning out carbon."-"The carbon taken out of this car in 50,000 miles amounted to less than an ounce." Zerolene is for sale at dealers everywhere and at service stations and agencies of the Standard Oil Company.

PRICE OF TUNGSTEN STILL ON THE BOOM

During the past week the price of o per cent tungsten ore was quoted in Colorado and New York as high at \$105 per unit, and it is stated that one sale was made at \$110. At this \$6,000, or more than \$200,000 per car, which will soon create unprecedented scenes of feverish activity in the tung sten fields of White Pine county which from the amount of development work already done, seems to have the greatest tungsten mines in the world.-Ely Record.

The Bonanza carries in stock home manufactured mine location books. They are durably bound and fit easily into the pocket. Each book contains 100 pages, there being fifty original location sheets, with two duplicates in different colors for each. The original is to be placed on the ground, the first duplicate is for recording and the third remains in the book for re-ference. Carbons are supplied so that each location notice need be written but once. For sale at this office \$1.25 each. Also loose leaf location notices, certificates and proofs
